Az lenne a kérdésem, hogy feltétlen szükséges-e az IC-nek a stabilizált tápfeszültség 9 vagy 12V-ra üzemeltetnem. Tudom, nem nagy dolog egy 7812-t vagy 9-et ele tenni. Az interneten nagy többségben olyan kapcsolási rajzokat találtam, ahol stabil tapról ment. Egy olyat is találtam, ahol elemről, stabilizálás nélkül. Ha stabilizálatlan tapról üzemeltetem trafo, Graetz, kondi, lesz attól valami gond vele Valaszokat előre is köszönöm. Grundig RRCD2420 mp3 tip. Grundig RRCD2420 mp3 tip. Tudna valaki segíteni. Köszönöm I have a Yamaha CDX590 CD player and it skips on some CDs original CDs, these CDs play without problems on my other CD players. I have changed the laser unit KSS210A but this didn't solve the problem. When I turn the player upside down, it plays the problematic CDs without a problem. That's why I think the laser needs adjustment. Here is a picture of the PCB. It didn't help. Mode 1 only a short blink of two horizontal dashes on the display and that's it. Mode 3 seems to be very short as mode 1. I think I'm missing something. Maybe someone did this or even serviced Yamahas in an official service and can provide information how to adjust the laser Or maybe the problem is not the laser KERDES. Volna egy nagy kérdésem. Van 1 Panasonic SAAK200-as mini hifim. És olyat csinal hogy bekapcsolom szól kb 1 percig és kikapcsol. És ilyet ír ki hogy F61 vagy FG1 a ketto kozul valamelyik. Nem tudja valaki mi lehet a baja Varom a valaszokat. Elöre is köszi. Similar manuals You can write in English language into the forum not only in Hungarian. C onnect P o w e r 1. Connect the soundbar power supply and power cord to the soundbar. Use the mute button to mute the audio. To cancel audio muting, push the mute, volume up, or volume down buttons. The dedicated Movie and Music audio mode excels the performance of the TVee Model 25. With just one cable to connect to your TV, you'll be up and running in no time. It doesn't need an additional remote and the subwoofer is wireless.

Whether you're watching sports, playing games, or just relaxing to your favorite playlist TVee brings every tackle, every sound, and every note to life with clarity and impact. The TVee Model 25 is a "2.1" system consisting of a sleek sound bar and wireless subwoofer that work together seamlessly. The system packs 150 watts total power peak in a compact, easy to install and use system. Installation is simple, with just one cable either digital or analog connection between the sound bar and your TV. Just plug the subwoofer power cord in and it automatically connects wirelessly to the sound bar system. It's just as easy to use because the TVee Model 25 doesn't require an additional remote control. It learns the basic commands of whatever remote control you use; your TV, cable box or satellite box remote. The TVee Model 25 sounds great thanks to leading edge technology. Its optical digital input features dolby digital decoding and the virtual surround mode is digitally optimized for improved performance. It even has selectable movie and music listening modes to optimize the system for viewing or music playback. The TVee Model 25 is classic Boston Acoustics.

Every component is engineered to meet the highest performance standards. Of course, performance is only one measure of value. So Boston is careful to build all its products with strict attention to everything from the choice of materials to the details of fit and finish. It's how Boston has been exceeding the expectations of serious listeners for over thirty years.The speaker system delivers clear dialogue for television, cinematic surround sound for movies and gaming, and enhanced stereo for music. Perfectly sized for televisions 32 inches and larger, the plugandplay set includes a soundbar and wireless subwoofer. TVee Model 25 At a Glance Onewire hookup and wireless subwoofer for hasslefree installation Virtual surround sound produces truetolife audio Soundbar operates with your existing TV remote control Dedicated movie and music modes for the best audio experience Auxiliary input lets you connect a portable media device Backed by a limited fiveyear warranty Soundbar sits below your TV to fill the room with rich audio. View larger. Plugandplay audio system for your TV provides virtual surround sound. View larger. A 6inch wireless subwoofer produces deep, realistic bass. View larger. Soundbar Enhances Your TVs Audio TVee Model 25 offers a plugandplay solution for televisions that have lessthanspectacular sound. The system is selfpowered, meaning it does not require a separate receiver or amplifier. Simply hook it up to enjoy powerful, dynamic audio from your favorite TV shows, movies, games, and music. HassleFree Installation and Remote Control Operation Installation is easy with the TVee Model 25. Connect the soundbar to your HDTV with just one cable included, and then mount the soundbar on any wall using its two integrated keyhole wall mountsno need for separate brackets. For further convenience, the subwoofer is wireless, so you can place it anywhere in your room. To keep things simple, the soundbar uses your televisions remote control for operation.

Connect a Portable Media Device A 3.5millimeter auxiliary input on the soundbars rear panel makes it easy to connect a variety of portable media devices. The TVee Model 25 plays back your favorite music and videos from an iPod or other MP3 playerall with enhanced audio. The

Boston Acoustics TVee Model 25 virtual surround sound speaker system is backed by a limited fiveyear warranty. Whats in the Box Boston Acoustics TVee Model 25 soundbar, speaker grille, wireless subwoofer, detachable power cord, analog RCA cable, digital optical cable, owners manual, and quickstart guide. Amazon calculates a product's star ratings based on a machine learned model instead of a raw data average. The model takes into account factors including the age of a rating, whether the ratings are from verified purchasers, and factors that establish reviewer trustworthiness. Please try again later. Amazon Customer 4.0 out of 5 stars The product arrived in excellent condition. Packaging was superb. Everything was easy UNTIL programming the remotes. The instructions provided, omitted a step in the remote setup and made you read between the lines to figure it out. With so many possibilities, you would get an excedrin headache in a minute. Follow the following for a seamless remote install.

Holding your remote about 12 inches away from the light SLOWLY depress the up volume button on the remote 4 times or until the orange light changes to green. So now I pressed the down volume once on the soundbar than pressed the down volume button on my remote 4 times until it turned green and so on. Once i got to my Comcast remote, it seemed to have memorized the prior samsung remote settings so i did not have to program that one. 4. Each TV is different. I went in to my TV menu and changed the audio to external speaker from TV speaker. If you leave the tv speaker selected, one gets sound from the tv speaker PLUS the soundbar. I can live with it. All is now hooked up and the resultant sound, compared to the tv speakers, with the subwoofer is well worth the price and enjoyment watching cable or movies. You can also plug in an ipod in the back to listen to music. The only reason I did not give this product a 5 star rating was the pain in figuring out the remote pairing with the soundbar. Otherwise, excellent product. Pros great accuracy listening to music, easy to setup with TV controller. I am an audiophile, used to install car audio, still a hobby for the speaker size in the woofer, great sound, considering the price. There are better and louder bass drivers out there. Not a problem for listening to music off my iPod easy to do by the way but there are some issues with volume leveling while watching movies. I do not mind if the volume goes way up during a dramatic moment during a movie. I have this connected to 2 year old panasonic viera plasma; this issue of not being able to adjust sound quality or volume leveling may not exist on all brands. As I would not have to mess with the volume much, I would hear little of the TV, and have my EQ and sound leveling and all. yes. This would work. No. I havent done it. I am lazy. Anyways, good bar, great value, audio quality very good.

Misses the lowest bass notes but its not the biggest driver, and for the size, the woofer thumps means the box was tuned very well and the highs and mids from the bar are very good. Happy customer. Nos vamos ajudalo a encontralo e economizar o seu tempo. Com a experiencia dos nossos usuarios, sabemos que a maioria de voces realmente nao dao importancia para eles.
